SUMMARY

Passionate and adaptable IT professional currently working as a Network Engineer, with prior experience as a Lab Assistant and a strong academic foundation in Computer Engineering (First Class with Distinction). While my early roles were network-focused, I have now transitioned into full stack web development, driven by a genuine interest in building scalable, user-centric applications. I have completed a full-time MERN stack internship, built real-world projects, and am preparing to pursue B.Tech under Anna University to strengthen my academic foundation further. Actively seeking full stack or frontend developer roles where I can apply my technical and creative strengths to solve real-world problems.

SKILLS

Technical Skills
MERN Stack Developer, HTML, CSS, Node.js, PHP, Java, Python, C++ & Mobile Application Development,System Administration
